

IN THE TEXT OF THE SPECIFICATION:

At page 27, between lines 13 and 14, kindly insert the following new paragraph.

B1
— The continuously variable nonrandom signal
from the generator 708 passes through an encryption
stage 713. —

REMARKS

Applicant wishes to thank Examiner Tan V. Mai for having acknowledged Applicant's election without traverse.

Section 112 rejections

In the Official Action it is said that the claims fail to be enabling, and they are accordingly rejected, on the argument that the —

"specification does not enable any person skilled in the art . . . to make and use the invention It is noted that the specification has merely mentioned about the encrypting; however, the flowchart of Fig. 7 [has] not detailed the feature."

With respect, this rejection appears to be inconsistent with the following proposition in the Action (see discussion below) that encryption is known.
